DEVOTED TO THE INTERESTS OF WASHINGTON COUNTY

VOLUME VI.

SPRINGFIELD, KY., WEDNESDAY, OCTOBER 26, 1910.

NUMBER 47

DEATH OF MRS. E. C. LITSEY

Passes Away at the Home of Her Father, Judge W. E. Sealeman After a Lingering Illness.

On Sunday morning, at 3:15, Mrs. E. Carlie Litsey was called to rest from the home of her father, Judge W. E. Sealeman.

Carrie Rachel Sealeman, eldest child of Judge and Mrs. E. C. Litsey, was born July 21st 1874, and was 36 years and 3 months old.

While attending school in Bowling Green, Ky., she united with the Baptist church. On her return from school she became a teacher in the Baptist Sunday school and exerted a mighty and lasting influence for good on the lives of the boys who constituted her class. Even in these girlhood days she was very active in every phase of church work. Carrie was one of the most popular girls who have lived in Springfield; her bright and gentle manner won her friends of every age and class. On June 5th, 1900, she was married to Mr. E. Carlie Litsey, of Lebanon, and since that time have made their home in that city. A year later little Sarah Sealeman Litsey came to brighten the home of her parents. The great devotion of this little family was most genuine and beautiful.

Mrs. Litsey had not been well for about two years, but was thought to be not seriously ill. Last July she came to Springfield to attend the wedding of her sister, Mrs. W. C. McChord, Jr., and a few days after the wedding was taken ill with typhoid. Later, pneumonia developed, and after a long and severe illness she passed away, leaving a sorrowing husband and child, father, mother, a sister, Mrs. W. C. McChord, Jr., and a brother, W. E. Sealeman.

The funeral took place Monday morning at 10 o'clock from the home of her parents, Judge and Mrs. W. E. Sealeman, on Walnut street, the services being conducted by Rev. W. H. Williams, assisted by Revs. Lawton, Moffatt and Graves. Interment was in Springfield cemetery.

One evidence of the high esteem in which Mrs. Litsey was held was the great attendance and beauty of the floral offerings by which her friends strove to express their admiration and sympathy.

She was brilliant and talented and was easily the leader in any circle she chose to enter, yet it was in the sacred precincts of home that she was seen to best advantage. She was the ideal sister and daughter, wife and mother. It is like this that make certain the fact of immortality, and in the light of this glorious hope the Sun desires to express its most sincere sympathy.

There will be two eclipses that will occur during the month of November. One will be a partial eclipse of the sun, November 1, invisible to the people of this country, and the other will be a total eclipse of Dr. D. W. Gadsden on Tuesday, November 8, visible every "son-of-a-gun" in the Fourth Congressional District—Lebanon Enterprise.

RATHER OPTIMISTIC

Hon. D. H. Smith Predicts a Big Majority For Ben Johnson at the Coming Election.

Under the heading, "Smith Optimistic Over the Outlook," The Louisville Times, of Tuesday evening, prints the following interview from Hon. D. H. Smith, possibly the best known man in the Fourth Congressional District:

Hodgenville, Ky., Oct. 18.—"From all indications, Ben Johnson's majority in the Fourth district will be 5,000 or over this time, and the Democratic party will win handsily all over the country."

That is the opinion of ex-Congressman D. H. Smith, of this place, a man who enjoys possibly a more extended acquaintance than any other person in the thirteen counties comprising the district. "Normally," he said "the district is Democratic by 2,500 or 3,000. When I defeated Congressman Lewis, of Washington County, the only Republican ever elected in the district, I won by about 1,500. But it was a three-cornered fight then. The Populists had a ticket in the field that received over 2,000 votes. In the four lower counties there is an Appellate Jury to elect this time, and that will bring out the vote, while in the other nine counties interest centers in the election of a Congressman and may keep the vote down. But Mr. Johnson is more popular than ever and his party stronger. I look for a majority of 5,000 at least."

"It was a presidential year the Democrats would sweep the country. As it is, Kentucky is going to break records and Ohio will retain the Harmon administration; the Republican party is pretty well torn up and each day finds things are looking better for Democracy."

DEATHS IN THE COUNTY

Two of The County's Highly Respected Women Pass to Their Reward.

Mrs. Mary Rowe, aged eighty-two years died at the home of her daughter, Mrs. John W. Gordon, Sunday. Her death was caused by pneumonia and the infirmities of age. She was buried Monday at Bethlehem, Rev. R. L. Purdon conducting the funeral service. Before her marriage to the late Thos. H. Rowe, Mrs. Rowe was an Abigail and was born and reared in Casey county. Her husband died forty-six years ago. Mrs. Rowe was the mother of six children, four of whom survive; Mrs. J. W. Gordon, Mrs. Sam Best and W. C. Rowe, of this county, and Mr. Dallas Rowe, of the State of Texas.

On last Thursday morning at her home near Williamsburg, death claimed Mrs. Rebecca Riley, one of the oldest women in that part of the county. The deceased would have been 74 years of age had she lived until her birthday next February. Mrs. Riley was the widow of the late John Riley who was a wealthy and well known citizen of North Washington, and who died about two years ago. The funeral services were conducted Friday by Rev. A. C. Pinkston and the remains interred in the Williamsburg cemetery.

Holidays.

In Kentucky the number of holidays is increasing. When a holiday is once established it is rarely abolished, and from time to time a new one is added, as was done by the last legislature. The observance of these holidays is optional rather than mandatory, and people may observe them or not, as they choose. If a holiday comes on Sunday the next day is to be observed as such. The holidays here are January 1st, New Year's Day; May 30th, Decoration Day; July 4th, Independence Day; the first Monday in September, Labor day; October 12th, Columbus Day; last Thursday in November, Thanksgiving Day; December 25th, Christmas Day, and such other days as may be set aside by proclamation of the Governor or President.

LARGE DOCKET ON HAND

October Term of Circuit Court Convened Monday.—Grand Jury Empaneled and Sworn

County Court and the opening of Circuit Court drew the largest crowd to town Monday which has been here for a long time.

Nothing was done in Circuit Court until the grand jury was sworn and called the common law docket. Judge Thurman's charge was as usual, not a lengthy one but was forcible and to the point. He warned the jury of outside influences that might be brought to bear upon them during their deliberations and told them to know no man, whatever might be his position, color or religion. The Judge stated that he had no fear of the present grand jury being swayed, but that he had known instances where, great pressure had been brought to secure unjust indictments or to prevent the returning of merited ones. He showed the jury how the exact and impartial performance of their duties rendered them of the greatest benefit to society and the enforcement of law.

The following men compose the grand jury of which Mr. John Arnold was made foreman:

GRAND JURY.
Reuben Bottoms, S. P. Chesner, Fred Chestnut, R. B. Hatchett, John Arnold, J. I. Martin, B. F. Spalding, J. S. Thomas, Barton Mattingly, F. Keene, Miles Osborne, John P. Burkhead.

PETTY JURY.
C. D. Miller, T. J. Miller, J. M. Yancy, R. B. Hatchett, Hugh Hall, Mike Shanahan, Fred Hagan, Evan Sale, S. M. Clark, S. W. Williams, J. M. Badgett, J. R. Durham, T. D. Sheahan, C. D. Shewmaker, P. L. Lafferty, Solomon Kays, W. B. Barlow, H. A. Rude, J. A. Kyler, H. S. Coyle, Walter McLaughlin, J. M. Wall, J. L. Moore.

There are several important cases set for trial during the present term of court and with the minor cases on the docket the entire time of the court will no doubt be consumed. The cases which will require the most time to try are those of the Commonwealth vs. Erastus Holliday charged with murder, the Prather-Keeling land controversy, the suit of I. Wise vs. Frank Keene and the Staggall will case.

Several Commonwealth cases were disposed of in Circuit Court yesterday. The first man tried was Richard Brown, a negro, charged with selling liquor in local operation. It did not take the jury long to find him guilty and assess a fine of \$75.

Satterly, charged with malicious cutting was turned loose on pre-emptory instructions. Ray Walls, indicted for a breach of the peace, was acquitted.

O to O.—Means Another

The Springfield High School football team journeyed to Danville last Saturday for their first game of the season, and while they did not win they returned all smiles. The cause of their smiles was the fact that they had held the strong Deaf and Dumb Institute team to a score of 0 to 0. Two halves of 15 minutes were played, during most of which time the ball was in the D. & D. territory. At one time Morrison O'Nan carried the ball to the D. & D. 5 yard line where he dropped it, whereupon it was pounced upon by one of the W. T. Clark's running of Chas. Hayden and the passing of the ball by Lawrence O'Bryan were features, while A. R. Shultz, Tom Spalding, Morrison O'Nan and Ren E. Simms played a fine game. Several games will be played here before the close of the season. The D. & D. boys will be here Nov. 12, and the Harrobor-High School probably on Nov. 5. Aside from these two games at least one more will be arranged.

Saved From the Grave.

"I had about given up hope, after suffering nearly four years from a severe lung trouble," writes Mrs. M. L. De, of Clarksville, "when I began to feel in my chest would be almost unbearable and I could not do any work. But Dr. King's New Discovery has made me feel like a new person. It is the best medicine made for the throat and lungs. Obsolete coughs, stubborn colds, hay fever, the grippe, asthma, cough, bronchitis and hemorrhages, hoarseness and whooping cough yield quickly to this wonderful medicine. Try it, 50c and \$1.00 bottles. Guaranteed by Hayden & Robertson."

CULTIVATE USE OF BOTH HANDS

Ambidexterity Necessary in Several of the Professions' Such as Surgery and Others.

A movement has been started in Germany for the cultivation of ambidexterity. The idea is that developing the power to use both hands equally well means developing the intelligence in general and the memory in particular. It is said to have been scientifically ascertained that while right handed people have the organ of speech on the left side of the brain, and vice versa, people who are ambidextrous have two language centers, one in each lobe of the brain. The infant begins life with two speech centers, but as the right hand is generally trained and the left neglected, the right speech center gradually grows torpid and useless.

The extraordinary claim is now made that by the cultivation of the left hand the capacity of the right speech center of the brain can be revived, and to that extent broaden the intelligence, as ambidexterity increases the use of the human being's hand.

An even more astonishing case was that of a boy who, at the age of thirteen, lost his left hand, but soon learned to do fairly well with an artificial member. At the age of thirty he suffered a stroke of paralysis which robbed him of the use of his right speech center. He was then fitted with a pen attached to a small ring with a pen at its end, to fixed to the artificial limb, he could practice writing, and thus not only recovered power over his original speech, but over French and Russian, which he had forgotten. As a matter of fact, ambidexterity is necessary in several professions and occupations, of which surgery and piano-playing may be given as examples.—London Standard.

Pooled Tobacco Moving.

The Washington County Branch of the Burley Tobacco Society has received orders to ship all its holdings to the Louisville Tobacco Warehouse Co. to be offered for sale. Several cars are now being shipped daily, and will be put on the breaks as fast as received. Fair prices are expected, but not near so good as the grower should receive. The low level of prices of this country alone will be many thousand dollars, all because of the failure to get in line and continue the fight to hold the price where it should be.

Following the Hounds.

A number of well known gentlemen were camped near Calvary the first of the week where they spent several days fox hunting. Several famous packs of hounds were taken out, one from Corbin, one from Washington county, and several other parties here, numbering in all about 40 dogs. The gentlemen who composed the party of hunters were, John Padgett and Joe Dooty, of Corbin; Wade Goodline and W. H. Hatchett, of Washington county, and Wallace McElroy, John Grundy, George Parrott, Maurice Doody and Dick Parrott—Lebanon Enterprise.

Dies of Typhoid Fever.

John B. Hundley, who lives near the old switch in the eastern end of the county, died at his home Tuesday evening of typhoid fever. Funeral services were held yesterday at Hayville church, conducted by Rev. R. B. Purdon, after which the remains were buried there. Mr. Hundley was 55 years of age at the time of his death, and is survived by a wife and two grown children. Besides his immediate family he leaves a father and two brothers, all residing in this county. Mr. Hundley was a prominent citizen in the community in which he lived, and has death will be a loss, both to his friends and acquaintances. The sympathy of the community is extended to the family in this great bereavement.—Lebanon Enterprise.

THE WIZARD BURBANK

Has a Successful Competitor in the Person of Richard Diener, of Colma, Cal.

New York, Oct. 17.—Luther Burbank the man who has made plants grow contrary to nature and do stunts undreamed of, has a rival in the person of Richard Diener, a gardener of Colma, a suburb of San Francisco, who has perfected a geranium six inches in diameter.

By removing pollen from a single variety of white geranium, which is in full bloom, and crossing it with a red one, Diener has discovered that the flowers become twice the original size, and by second and third crossing he is able to produce a cluster of thousands, measuring from five to six inches in diameter. The number of individual flowers is increased from twenty-two to sixty-seven, while the color changes from pinkish white to scarlet. Diener has also produced carnations four and five inches in diameter. The carnations were evoked by erasing a carnation with a Prosperity pink. When at full growth the flowers attain an average height of three feet and the stalk is almost as thick as a lead pencil. This mammoth pink was reared in the open air. In the Dahlia Diener is seeking not only to produce new varieties, but also freak flowers. He has evolved fifty-seven distinct varieties. He is now trying to produce blue dahlias. He has succeeded in producing a rich, royal purple flower which on the edges is dark blue.

AGAIN AGITATING TAXING BACHELORS

The Fortunate Man Who Loves Single Blessedness To Be Taxed for His Sterility.

The question of whether bachelors should be taxed is again agitating some of the readers of this time it has broken out in Memphis and the Commercial-Appeal takes the affirmative on the proposition on the grounds that all luxuries should be taxed, and as single blessedness is a luxury, it should be taxed as the other luxuries of life. In face of the fact, however, that Dr. Johnson says that the married man has many cares, the bachelor no pleasures. Proceeding on the proposition that all who are single marry and suffer the penalty thereof, the writer joins in the demand to tax those who are so selfish as not to want to make a woman participate in their misery.

A bachelor is one of the most useful men in the world. He is the wheel of civilization. He foregoes all of the troubles of matrimony and never knows the horror of walking the floor with his offspring or of being kept awake all night by his equals. Tax 'em and tax 'em till the cows come home. Their money could not go to a better purpose than for a fund to support the old maids that their selfishness has made to exist.—Lexington Herald.

How to Tell if Your Hair is Diseased.

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. 98 per cent of the people need a Hair Tonic. Pull a hair out of your head; if the bulb at the end of the root is white and shrunken it proves that the hair is diseased and requires prompt attention if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try Rexall's "99" Hair Tonic. We promise that it shall not cost you anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of how Rexall's "99" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes; 50c. and \$1.00. Sold only at our store—The Rexall store, The Hayden & Willett Drug Co.

THE MUSE OF THE SUN

Contributes the Following Excellent Addition to the Ballads of the Day.

Some time since the Baltimore Sun published a short poem, of exquisite lyric beauty, under the caption, "The Singer in the Valley," and the following characteristic song poem was composed by Mr. Sam J. Allen, of the Springfield Sun, in response to the sentiment contained in the lyric of the Baltimore paper. This song is now published for the first time by permission of the author. It is pronounced by competent critics to be a fine piece of lyric composition. It is entitled:

MY VALLEY HOME.

There's a verdant little valley
In my native Empire State,
Where a silvery, purring stream
Flows swiftly down;
Where the maple and the birch tree
Are growing tall and great,
And the hilltops glisten brightly
In the dawn.

Black eyes, blue eyes, eyes of every hue,
Twinkle in that valley, ever bright and true;
But those eyes of hazel, brighter than the dew,
Are the only eyes that lure me unto you.

A star illumines this valley—a bright, celestial gem—
Which sheds its brilliant radiance down the vale,
Rejoicing in its beauty, a monarch's diadem,
And with transcendent glory fills the dale.

This star is but the love-light in a glorious woman's eye,
That draws all lovers towards it near;
And makes the home an Eden, while the summer blossoms die,
And the fragrance of her presence fills the air.

There's a home within this valley, in a beauteous woman's dell,
Embosomed in a spreading flow'ry world of foam,
And the atmosphere of love within its portals teels,
That the angels here have sown celestial seed.

Fond memories cluster 'round me of this happy valley home,
And the instant of the past will never pale;
These memories ring lovingly as o'er the world I roam,
To return with steps of gladness to that vale.

Where the welcome that awaits me is not veiled in unfeigned love;
Where the glowing heartbeats shed its genial rays;
Joyous mirth and laughter fills the air,
And eager ears are open to tales of bygone days.

The Great Balloon Trip.

Wellman, the daring aeronaut, with four companions, made a dash last Saturday from Atlantic City, N. J., in the huge airship, America. His intention was to cross the ocean to Europe. For a few hundred miles he made progress, but at last he met adverse currents and for two days wireless communication was stopped. He was swept Southward and his airship wrecked off the coast of North Carolina, where he and all his companions were picked up by a passing steamer. It was a daring venture and shows the determination of the present generation to out-do all former adventurers.

Politeness is Rewarded.

Because of his unflinching and seemingly spontaneous courtesy to elderly men and women with whom he came in contact, Charles Hohlitzelle, formerly a social arbiter among the young bachelors of St. Louis, now a resident of New York, is \$15,000 richer to-day. His attentions to Mrs. Anna L. H. Baily, of St. Louis, a daughter of Judge Alexander Hamilton, one of the most distinguished lawyers of his day, have been rewarded by his inheritance of a block of bank stock, according to the terms of her will. He called often upon Mrs. Baily and when absent from the city wrote to her unfailingly.

WHAT IS GOING ON IN DIFFERENT SECTIONS OF THE COMMONWEALTH

DECISION IN "MALT MEAD" CASE.

Judge Carroll Hands Down Important Decision.

Frankfort.—The court of appeals, in the case of Clay Gourley vs. Commonwealth, from Lee, decided that it must be proven that the drink known as "malt mead" is intoxicating before a man can be fined for selling it in a local option district. The opinion is an exhaustive one by Judge Carroll, and says that certain drinks are known judicially to be intoxicating, such as whiskey, beer, wine, brandy, and gin, and it is not necessary to prove that they are intoxicating; but drinks of other names not commonly known to be intoxicating must be proven to be so before a conviction can be had. Gourley had sold "malt mead," but the man who told he said it was not intoxicating by drinking it. The court says that no matter how much it takes to make a man drunk, it is shown that the liquor he drank made him drunk, the man who sold it to him in a local option district is liable to a fine.

CHANGED BY NEW LAW.

Special Judge W. O. Harris Vacates Bench at Shelbyville.

Shelbyville.—In the circuit court, when the case of the Commonwealth vs. the International Harvester Co. charged with being a combination in restraint of trade, was called, Commonwealth's Attorney Sanford raised the question that Special Judge W. O. Harris, of Louisville, who was presiding, had no right to sit, under the new act which requires that when the regular judge is disqualified the governor must appoint a judge from another district in his place. Special Judge Harris held the point well taken, and ordered a continuance of the case to the next term.

Langford's plea was that he had been drinking beer, and that he threw the bottle out of the back of the car, not knowing there was another car in the rear.

Louisville.—The Association of American Directory Publishers in session here elected the present board of trustees to serve during the next year. The session next year will probably be held in Boston. The annual report shows the organization to be in a healthy condition.

Louisville.—More than 2,000 visitors and delegates are expected to be in Louisville to attend the opening of the annual meeting of the Grand council, Grand chapter and the Grand lodge of Kentucky Masons. Many of the visitors will remain until the closing session. The 800 lodges in the state will be represented, and most of the past grand masters and past grand high priests will attend the Masonic theater will be closed for the week and the various lodges, councils and chapters will hold meetings in the auditorium.

Doings of the Week

Princeton.—Acting upon advice from Paducah, the I. C. railroad men of Princeton and O'Hara went out on a strike.

Evansville.—W. I. Rudd, aged 63 years, head of a bank at Rockport, Ind., and a prominent manufacturer, died in a hospital of paralysis.

Princeton.—Silver Leaf Camp, W. O. W. No. 92, of this city, unveiled a monument at the grave of the late Sovereign R. G. Barnett at White Sulphur Springs.

Following the raiding of alleged gambling houses at Lexington, Ky., by the sheriff of Fayette county, the city police were severely arraigned by the circuit judge.

Chicago.—Urey Griffith, who, with his sister, Mrs. Kye Bora, arrived from Paducah, Ky., committed suicide by swallowing poison. According to the police, the young man had been melancholy over a love affair.

Paducah.—Mr. and Mrs. Jack Fisher, of Benton, are here visiting friends. Mr. Fisher and Miss Evalie Martin, a young woman of Birmingham, shall county, were quietly married in Cairo, Ill., and they had planned to keep the marriage a secret.

Lexington.—Prince and Princess Yrrellant, of Vienna, Austria, are visiting visitors in the city. The prince is here to purchase horses to take back to Austria, and the princess accompanied him for a tour of the Blue Grass country. They are receiving many pleasant social attentions.

Lexington.—A deal has been closed by which the Kentucky Stock Farm, a weekly harness horse journal, taking charge at once. The controlling interest in the paper was bought from Charles L. Monach, Jr., formerly of Louisville.

Four men, all prominent dealers in oleomargarine in Louisville, were given stiff jail sentences and fined heavily for violations of the oleomargarine law by Judge Walter Evans in the Federal court. The fines varied from \$100 to \$1,000 and the sentences from six to ten months.

Carrollton.—Henry H. Korn, the nine-year-old son of Harrison Korn, fell from a fence and died a few minutes later of a broken neck. The little fellow was standing on the fence, watching Al Pollitt, a neighbor, shoot sparrows, when he lost his balance and fell backwards.

Glasgow.—Dr. W. K. Richardson and others of Tompkinsville who were injured by the falling of the seats in M. L. Clark show at Tompkinsville brought suit against the Clarks for damages. Horses belonging to the show were attached and held, but, after several days, were released on a compromise of \$500.

Whiteburg.—While out hunting on Marrowbone creek, near the Pike-Letcher border, Frank Stapleton, a farmer, accidentally shot and killed himself with a shotgun. Stapleton attempted to cross a fence when the gun was discharged, the contents taking effect in his right side. Death is believed to have been instantaneous.

Joseph D. Kennedy, aged 75 years, died Sunday. Mr. Kennedy was one of Covington's pioneer citizens, and held the position of surveyor of Kenton county. He was a son of the late Thomas D. Kennedy and grandson of Gen. Joseph Kennedy, whose father built the stone house on East Second street where Eliza, of "Uncle Tom's Cabin" fame, was supposed to have spent the night. The funeral took place from the residence of B. W. Southgate on Tuesday.

New Castle.—Joe Fore, Sr., shot and killed Anderson Smith in this place. Smith went to Fore's house under the pretext of forcing an entrance, accusing the latter of stealing \$10 from him, whereupon the fatal shot was fired from inside the house. Smith died two hours, but never spoke.

Fore surrendered at once and was placed in jail. Smith had lost \$10; it was found this morning on the street. Both men are negroes.

Versailles.—A large barn at Ambrose Etherington's farm six miles south of Versailles, containing 5,000 pounds of tobacco, eight tons of oats and a lot of farming implements, was destroyed by fire. Eleven head of horses were burned to death. The loss is about \$5,500, partly insured. The origin of the fire is unknown, but is believed to be incendiary. Bloodhounds will be brought here from Lexington to be put on the trail.

London, Ky.—One of the most successful moonshine raids made in Eastern Kentucky for several years was concluded in Clay county by Capt. George C. Thompson, deputy United States marshal, and Deputy Collector M. G. Hignite. The raid had been in progress since early in the week and the officers caught and imprisoned two large moonshine still outfits were captured and destroyed near Oneida, Clay county, and from that locality most of the six prisoners came.

Frankfort.—Poking a stick under a rock at Buffalo Trace to start a blowing fire, which was a feat, was done by Ernest Marshall, Delmar Harrod and Wink Wingate. The men, who were spotted and destroyed near Oneida, Clay county, and from that locality most of the six prisoners came.

London, Ky.—The first week's session of the October term of the Breathitt circuit court has resulted in a record for indictments. The most other violators that has been known in this county for ten years. "Blind tiger" operators alone have paid \$4,500 in fines.

Ribbon Effects

By JULIA BOTTOMLEY.

Nothing is prettier in ribbon arrangements than a bow and ends in simple or in elaborate designs. But one may not always arrive at the desired effect by the use of bows. A shape may be modified or changed in appearance by building it in one direction or another with ribbon arranged in loops. Flower forms may be copied or simulated, and nothing is more fashionable than small, compact roses and foliage made of ribbon. These examples are given here of ribbon in unusual arrangements. In the first a cap-like shape covered with blue velvet poppies is lengthened at the back with wired loops of heavy satin ribbon. These bows redeem the shape, lifting it from the commonplace into one of those which the French have described as "the fashion profile" shapes. They are full of

style. The loops in this instance are made overlaps of boned wire sewed to the shape at the back. A pretty drooping brimmed round hat, having the brim edge finished with a shirring of velvet shows plaits of ribbon and velvet bows poised together about the round crown. This forms a sort of rosette, in which the plaited ribbon sets, and the result makes one thing of a flower. In fact, each velvet and ribbon decoration is much like a huge pansy in shape. The pretty hat, which is of kind's blue felt, needs no other decoration.

A hat for a miss faced with changeable taffeta gathered in the under brim, is bound with a puff of velvet. A collar of ribbon about the crown is finished with a very full plaiting or shirring of ribbon at the left front. Such a hat is ideal for a miss of 16 French years, and is quite within the range of amateur millinery to make.

GIRL'S OUTING COSTUME

JEWELS FOR DAY AND NIGHT

Precious and Semi-Precious Stones Very Much in Evidence on All Occasions.

With low-cut necks narrow velvet collars set with three or five graduated ornaments of paste set in old silver metal are smart and becoming with both afternoon and evening gowns.

Earrings do much to break the line of a long neck with a collarless gown. Lovely new ones are shown in Parisian diamonds, colored stones and baroque pearls.

A good looking set of earrings has a bowknot and dangle of diamonds with baroque pearl; another set that serves on a dress of pearls, one above the other, connected by jeweled chains with amethyst drops.

A shield-shaped corage ornament of Parisian diamonds and French emeralds, with a shoulder catch to correspond, gives a brilliant finish to a low-necked evening gown.

The woman of the high collar purchase one of the high dog collars of rows of need pearls crossed by narrow side bars and a square center of Parisian diamonds.

For traveling or sports a watch bracelet is growing in favor. One of the new ones has a flexible woven strap and buckle of gold wire set with a red enamel watch studied in pearls.

On a gray suede wrist strap is a small watch of gold rings studded with alternate rubies and pearls or sapphires and pearls. Cheaper for hard wear are tan or gray suede bracelets with a small open-faced gold or silver watch.

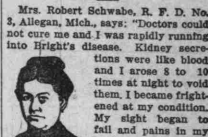

A fascinating ornament of French jewelry that can be used for the hair or corsage is a pair of Mercury wings set to form a hollow that can encircle the hair knot.

The black chiffon blouse over white or over a silk in Persian colors is even more popular now than at the time of last season, when it was hailed as a novelty. The veiled effect is more pleasing and satisfactory in a waist than a skirt, since it gives a color effect which cannot be obtained by pinnings or bands. There is a beautiful mesaline, woven in the designs and colorings of the famous Indian shawls, which is used extensively in combination with black for waists. The plain black silk waists are worn a great deal. The smartest of them have a narrow round yoke of white lace, which gives them a dainty appearance, relieving the somberness of the black.

A New Tie. A fetching new tie that gives a touch of color to a dark or white costume is made from bias satin or velvet formed into inch wide folds. These are sewed with bunches of tiny flowers and leaves, while a similar bunch holds the leaves together in front.

TERRIBLE SUFFERING ENDED.

How an Allegan, Mich. Woman Regained Her Health.

Mrs. Robert Schwabe, R. F. D. No. 3, Allegan, Mich., says: "Doctors could not cure me and I was rapidly running into Bright's disease. Kidney secretions were like blood and I arose 8 to 10 times at night to void them. I became frightened at my condition. My sight began to fail and pains in my back were like knife thrusts. I cried for hours, unable to control my nerves. After I started using Doan's Kidney Pills, I began to feel better and soon I was cured. I am a living testimonial of their merit." Remember the name—Doan's. For sale by all druggists, 50 cents a box.

He Knew.

A small boy brought up by a fire eating father to late anything connected with England or the English was consigned recently to eat dinner with the nurse while the family entertained a genuine French host in the dining room. The grown-up meal had come to that twenty minutes past stage where conversation halts directly, when the French host, leaning upon the dumb-waiter shaft from the kitchen. This is what the astonished nobles heard:

"Fa, fa, rum."

"I smell the blood of an Englishman."—Wasp.

COFFEY WAS IT.

People Slowly Learn the Facts.

"All my life I have been such a slat to coffee that the very aroma of it was enough to set my nerves quivering. I met gradually losing my health but I used to say 'Nonsense, it don't hurt me.'"

"Slowly I was forced to admit that truth and the final result was that my whole nervous force was shattered. My heart became weak and uncertain in its action and that frightened me. Finally my physician told me, about a year ago, that I must stop drinking coffee or I could never expect to be well again."

"I was in despair, for the very thought of the medicines I had tried so many times nauseated me. I thought of Postum but could hardly bring myself to give up the coffee."

"Finally I concluded that I owed it to myself to give Postum a trial. So I got a package and carefully followed the directions, and what a delicious, healthy, rich, and felt like a feast. I found it very easy to shift from coffee to Postum and not mind the change at all."

"Almost immediately after I made the change I found myself better, and as the days went by I kept on improving. My nerves grew strong and steady, I slept right and felt like a new man."

"Now I am completely cured, with the old nervousness and sickness all gone. In every way I am well once more."

It pays to give up the drink that acts on some like a poison, for health is the greatest of all fortunes, and it is the greatest of all losses.

DEMOCRATIC TICKET.

FOR CONGRESS:
HON. BEN JOHNSON.

BEN JOHNSON IN SPRINGFIELD.

Monday last, County Court day, Hon. Ben Johnson, Democratic candidate for Congress from the 4th congressional district delivered a very able address to a large and appreciative audience, in the court house here, beginning at about 1:30 p. m.

Mr. Johnson spoke first on the tobacco question and addressing himself more directly to the tobacco farmers of the section, showed them conclusively how they had ruined their prospects along tobacco lines by repudiating the pool, thus placing themselves completely at the mercy of one of the most gigantic monopolies in the world, the American Tobacco Co., operated and controlled by the Rockefeller interests, the dominating financial power in the United States, if not in the whole civilized world. He pointed out that the future of tobacco, as a paying investment to the grower, had received a blow from which it may never recover, as the Trust would never advance the price in the interest of the producer.

He next paid his attention to his Republican opponent, Dr. Gaddie, and evoked much applause from his audience in this connection, and he certainly did not present that gentleman in a very favorable light, nor did he swell his contingent of votes.

His exhortation of the Payne Aldrich tariff measure was a masterpiece. This "tattered and torn, all forlorn" relic of Cannonism was punctured at every vulnerable point by the surprising array of facts which he adduced, and the skillful and convincing arguments he advanced. He handled the subject without gloves and dealt some of the severest blows at this unpopular and odious measure that has yet been reported.

Mr. Johnson was in his best vein and held his audience, from start to finish, in wrapt attention. His address was admirable and every way worthy of the distinguished gentleman, and there is no doubt that those who were "on the fence," if any, climbed down and got into the Johnson band wagon.

From all indications Mr. Johnson will be returned by a much increased majority, and in this view the Sun joins, with unmistakable conviction.

Ben Johnson has been a credit to his constituents and they will show their appreciation of the splendid work he

has done in Congress by returning him, not only on this occasion, but as often as he desires the honor. Able, fearless, always mindful of the best interests of his constituency, a true type of the Kentucky gentleman, he sheds a luster upon his State and adds importance and dignity to the Commonwealth in the halls of Congress.

As to his candidacy for Governor the results of the coming election will prove that he is by far the ablest, the most popular and the most available candidate for this high office, and we feel assured that he will lead all competitors when the convention meets.

Moore's Air-Tight Heater

Does the Work of a Furnace!

It's by far the greatest heater on earth! Built on an entirely different principle than others. Heats by circulation instead of radiation.

One Moore's Air Tight Heater will heat your entire house—up stairs and down—and keep every floor as warm as though you had a furnace. It heats the air in the farthest room to the same temperature as the air in the same room as the stove.

Saves Over Half Your Coal Bill!

Moore's Air Tight Heater burns hard coal or the cheapest kind of slack, and can be run at less than half the cost of other heaters. The Egg Shaped Dome and Hot Air Plus Firepot consumes all the carbon in the coal, thus overcoming the smoke and soot nuisance as well as making the fuel last longer. There are no cinders and no cinders.

The Dust Flue takes all the dust and small ashes up the chimney, thus preventing them from collecting on the floor and furniture.

The Ashpan Apron keeps all ashes from falling on the floor when removing pan.

All parts are surface ground and fit together air tight. Nothing but asbestos welding is used in mounting. It expands and contracts with the heat, so that the stove is perfectly air tight and under complete control at all times.

The Handsomest and Handiest Heater Ever Made!

All nicked parts are of the very highest finish, through a process known only to the House of Moore. None of the polished parts comes in direct contact with the fire. The polish can't burn off. One polishing

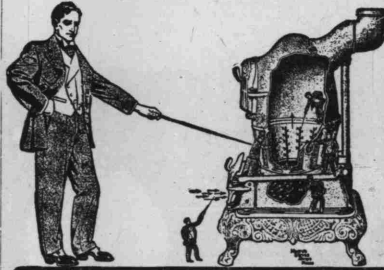

keeps the stove like new for a whole year. The Air Tight Draft Control enables you to hold a fire from 24 to 48 hours. Fire never goes out over night, and is always under perfect control.

A writer in a contemporary makes the following reference to his early experiences in a printing office, which is rather amusing.

"I once worked at the case for two consecutive days. I was a printer's devil then, and for the benefit of those readers who do not know what the duties of a printer's devil are, perhaps I should explain them here.

"I used to chop up the office towel into kindling and start a fire in the printshop every morning. Another duty was to give the cat a bath in the ink keg. Part of my work consisted of washing the rollers with gasoline, and once when my clothing was reeking with gasoline, I went too near the fire and nearly exploded from spontaneous combustion. I also used to feed the press every day—I always fed the press about 4 p. m.—we feed the press only once a day—I used to feed it with various things just to find out what it liked best, but I didn't feed it the office cat, although I got credit for that. As a matter of fact, the cat had no business to go to sleep on the press bed. I recollect that day there was a likeness of the fattest cat you ever saw on the first page. When I didn't have anything else to do I used to tie type.

"I said I worked at the case two days. I did, and I mixed up the types in the boxes to such an extent that the boss put the whole business in the hell box and told me to go there too. He told me frankly he didn't think that a kind and wise Providence ever brought me into the world to be a printer—he said he thought I had been born to just stand around in other people's way and thus prevent them from winning obstacle races. When I forsook the art of trying to balance myself on a high three-legged stool while

endeavoring to pick a precarious living from a lot of dinky little boxes filled with type, the printers lost a valuable man, and, as far as I have been able to learn, no one yet has been able to fill my place."

Jim Howard for Governor.

The Lexington Herald says, the suggestion comes from the mountains that Jim Howard, accused of firing the shot that killed Governor Goebel and who was also pardoned by a partisan Governor, be made the nominee of the Republican party for that office next year.

There is a good reason for the suggestion. Mr. Howard has not been vindicated by popular vote from the stigma put on him by a heartless jury, when sent him to the penitentiary for life, and since Caleb Powers has been vindicated (?) Mr. Howard doubtless feels that he is entitled to vindication. Of course the voters would rise up en masse and give it to him and when he is installed, and he doubtless will be, he could appoint the others engaged in the four conspiracy to positions as long as they held out. By all means let Mr. Howard run. He is certainly entitled to as much vindication as any of those charged with the vile assassination. —Lebanon Enterprise.
